METATOMIX TAKES CENTER STAGE AT THE 2008 SEMANTIC TECHNOLOGY CONFERENCE

A Platinum Sponsor, Company Will Highlight its Semantic Services Solutions in Key Sessions and on Show Floor

Dedham, Mass., May 13, 2008 – Metatomix, Inc., a leading provider of semantic solutions to financial services, justice and public safety, manufacturing and life sciences organizations, today announced its semantic services solutions will be prominent at the [2008 Semantic Technology Conference](#), May 18-22 at the Fairmont San Jose in San Jose, CA. Joining Oracle as the two platinum sponsors of the event, the company will highlight its semantic services solutions on the show floor (booth #308) and in two key sessions.

CTO Howard Greenblatt will present at both sessions. The first, titled “T8: Sample Applications Using Oracle Database Semantic Technologies,” will be held on Monday, May 19, from 8:30 a.m. - 12:00 p.m. EDT and led by Melliyal Annamalai, principal member of technical staff at Oracle. During the session, Greenblatt, as well as VP of Marketing Jon Pilkington, will give a 30-minute customer case study presentation on how Metatomix’s semantic technology is able to integrate multiple life science databases leveraging Oracle Database 11g.

Greenblatt will present a second session titled “Ontology-Based Analytics” on Wednesday, May 21, from 11:15 - 11:45 a.m. EDT. In this session, Greenblatt will discuss how the Metatomix analytic platform allows users to semantically cluster, categorize and analyze huge volumes and varieties of data sources, and increase the amount of information a user can process and review at one time.

The company will also unveil two videos highlighting a partnership with ACI WorldWide, Inc, which was announced today (see separate press release: “ACI Signs Partnership Agreement to Leverage Metatomix’s Semantic Platform.”) <http://www.marketwire.com/mw/release.do?id=855650&k=metatomix>

The first video co-produced with Gartner will feature interviews with Metatomix CEO Jeff Dickerson, VP Distinguished Analyst, Ted Friedman as well as three ACI executives. The second corporate video will focus on how ACI is leveraging the Metatomix semantic platform across its extensive suite of payment applications to provide their customers with enhanced data integration and presentation capabilities.

Members of the media and analyst communities interested in speaking with Metatomix at this event should feel free to attend the Metatomix media/analyst briefing session led by both Greenblatt and Pilkington on Wednesday, May 21 from 10:45 - 11:15 a.m. EDT in the media/press room, located in the Hillsborough Room on the ballroom level.

About Metatomix, Inc.

Founded in 2000, Metatomix is the leading provider of semantic solutions to financial services, justice and public safety, manufacturing and life sciences organizations. Metatomix solutions link data from existing disparate systems to create a common semantic understanding across the enterprise. Using this contextual understanding, Metatomix solutions enable real-time analysis and insights, orchestrating and coordinating responses among both people and

systems to optimize business performance. For more information, visit the Metatomix Web site at <http://www.metatomix.com>.
